Lahma

Firma Lahma to producent elementów do budowy pomieszczeń mokrych typu SPA & Wellness takich jak: łazienie parowe, błotne, Laconia, Tepidaria, Caldaria, pomieszczenia wypoczynkowe i wszelkie inne pomieszczenia, które są następnie wykańczane ceramiką lub kamieniem. W naszej ofercie znajdują się takie elementy jak systemy ław o różnym przeznaczeniu i kształtach, leżaki ze zintegrowanym ogrzewaniem, nieckiwanienni, a także komponenty łazieni i innych pomieszczeń pod indywidualny projekt jak ściany, sufity, natryski, kolumny i wszelkie inne elementy konstrukcyjne. Wszystkie elementy wykonywane są na bazie wodoodpornej i termoizolacyjnej pianki XPS. Dzięki pracy na nowoczesnych maszynach typu CNS oraz własnej technologii powlekania na bazie cementów modyfikowanych oraz epoksydów oddajemy produkt o dopracowanym kształcie i najwyższej jakości.

The Lahma company is a manufacturer of elements used in the construction of wet rooms of the spa&wellness type, such as steam baths, Rassoul, Laconium, Tepidarium, Caldarium, relaxation rooms and all other facilities, which are then finished with ceramic tiles or stone. Our product range includes such items as bench systems for different purposes and of various shapes, loungers with integrated heating, bath basins, as well as components of baths and other tailor-made facilities. These components include, e.g., walls, ceilings, showers, columns and other structural elements. All of them are based on waterproof and insulating foam XPS. Using modern CNC machines, Solid Works software and a 3D scanner, as well as our proprietary coating technology of based modified cement and epoxides, we can deliver products of sophisticated shape and top quality.

Firma Lahma ist Hersteller von Elementen zur Einrichtung von nassen SPA & Wellnes Räumen, wie: Dampfbäder, Mooräder, Laconien, Tepidarien, Caldarien, Erholungsräume und jegliche andere Räume, die anschließend mit Keramik oder Stein verlegt werden. Unser Angebot umfasst Bänke-Systeme mit verschiedenen Bestimmungen und Formen, Liegen mit integrierter Heizung, Wannenbecken sowie Komponenten für Bäder und andere Räume, auch mit individueller Gestaltung, wie Wände, Decken, Duschkabinen, Säulen und sonstige Konstruktionselemente. Alle Elemente werden auf Basis von wasserfestem und wärmedämmendem XPS-Schaum gefertigt. Dank Verwendung moderner, digital gesteuerter CNC-Maschinen mit Solid Works Software und 3D-Scanner, sowie eigener Beschichtungstechnik auf Basis von modifizierten Zementen und Epoxiden bieten wir Produkte höchster Qualität mit vollkommenen Formen.

L'entreprise Lahma est un fabricant des composants pour la construction des locaux humides de type Spa et Bien-être tels que: bains de vapeur, de boue, laconiums, tépidariums, caldariums, salles de repos et toutes les autres installations, qui sont ensuite finies avec de la céramique ou de la pierre. Notre gamme de produits comprend des éléments tels que les systèmes de banquettes de différentes formes, pour différents usages, chaises longues avec chauffage intégré, baignoires et composants des salles de bain, ainsi que d'autres installations adaptées au projet individuel comme murs, plafonds, douches, colonnes, et d'autres éléments structurels. Tous les éléments sont réalisés sur la base de la mousse XPS, thermo-isolante et imperméable à l'eau. Grâce au travail sur des machines modernes à commande numérique de type CNC en logiciel Solid Works et sur un scanner ainsi qu'à notre propre technologie de revêtement à base d'époxy et ciment modifié nous mettons en service un produit de forme raffinée et de la plus haute qualité.

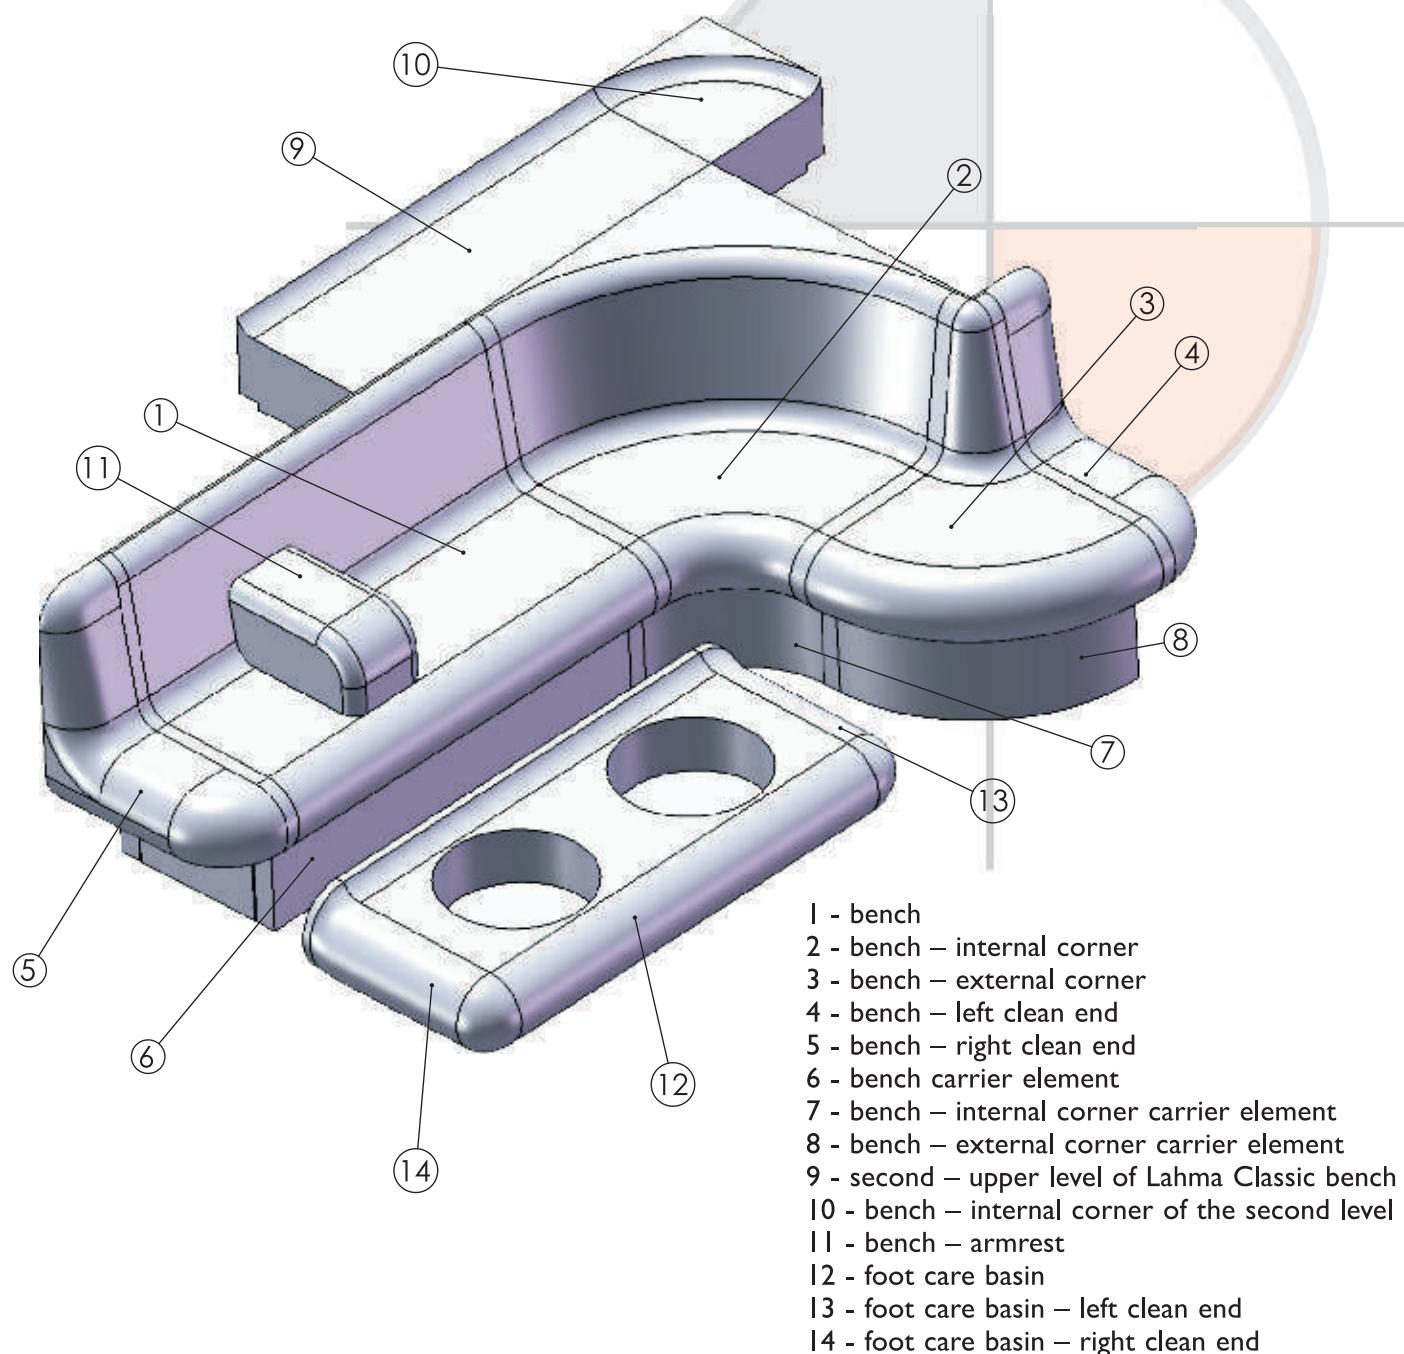

Компания Lahma – это производитель элементов для оснащения влажных помещений SPA&Wellness, таких как паровые сауны, грязевые ванны, лакониумы, тепидариумы, кальдариумы, помещения для отдыха и любые другие помещения, которые отделяются керамикой или камнем. В нашем предложении имеются такие элементы, как системы лавок разного предназначения и формы, лежанки с интегрированным обогревом, полости ванн, а также компоненты саун и других помещений по индивидуальному проекту: стены, потолки, души, колонны и всякого рода иные конструкционные элементы. Все элементы изготавливаются на базе водостойкой и термоизолирующей пены XPS. Благодаря работе на современных машинах с цифровым управлением типа CNC с программным обеспечением Solid Works, сканером 3D, а также благодаря собственной технологии покрытия на базе модифицированных цементов и эпоксидов, мы передаем в ваши руки продукт законченной формы и самого высокого качества.

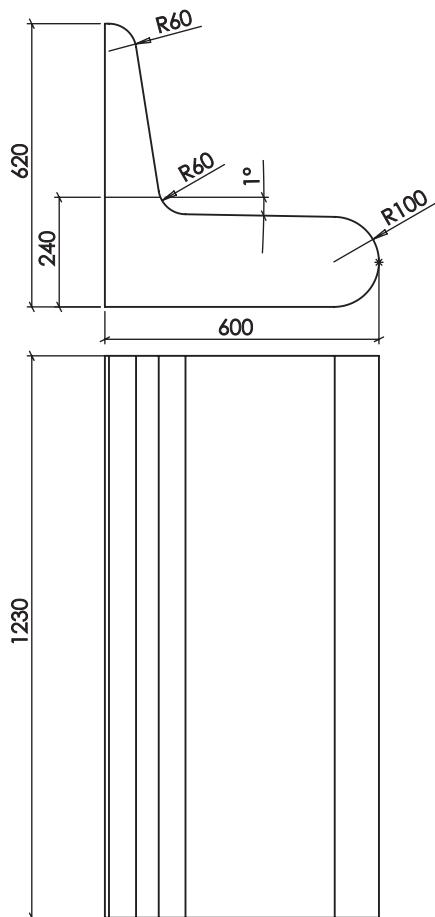

## System ław Lahma Classic

### Lahma Classic bench system

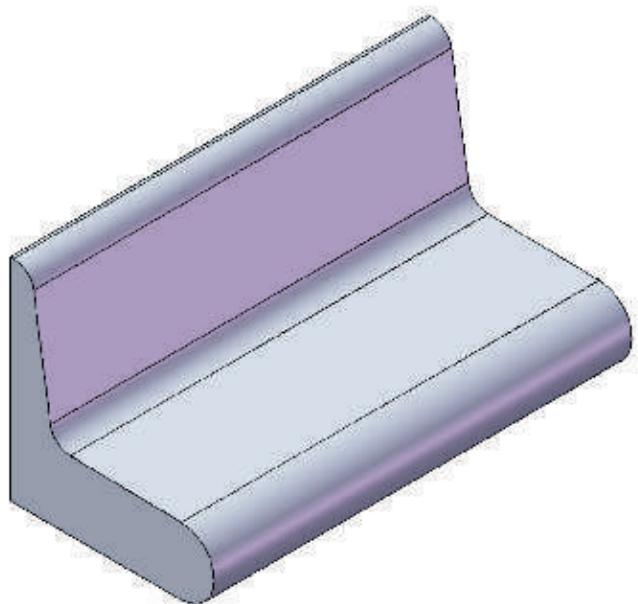

System ław Lahma Classic stanowi kompletną propozycję zabudowy do łaźni parowych o małej i średniej wielkości, a także do wypoczynkowej, w połączeniu ze zintegrowanym basenikiem do moczenia stóp. Wybór elementów łączących jak narożniki oraz zakończenia ław, a także wykorzystanie powierzchni poprzez stosowanie drugiego poziomu siedzisk, pozwala na dowolne niemal projektowanie pomieszczenia.

The system of Lahma Classic benches is a complete offer for small and medium-sized steam baths. The selection of connecting elements, such as corners and bench clean end solutions, along with the optimised utilisation of space through the use of the second seat level allows you to design virtually any kind of room.

## System ław Lahma Futura

### Lahma Futura bench system

System ław Lahma Futura ze spadkiem ku przedniej części dedykowany jest do pomieszczeń mokrych jak łaźnie parowe, błotne i inne. Kształt ław idealnie nadaje się do umieszczenia oświetlenia pod siedziskiem, co każdemu pomieszczeniu nada niepowtarzalnego charakteru.

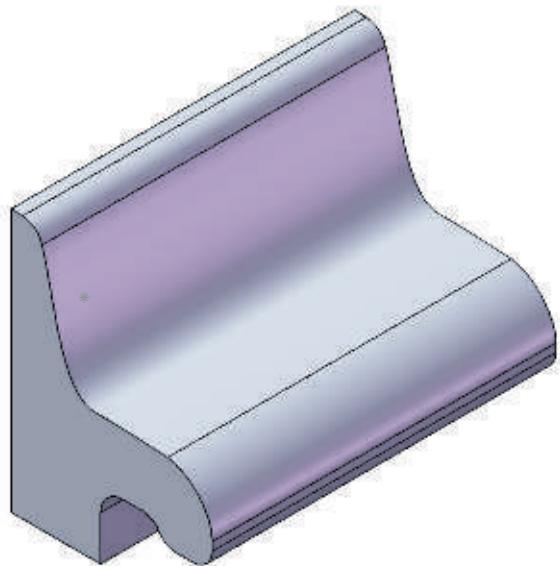

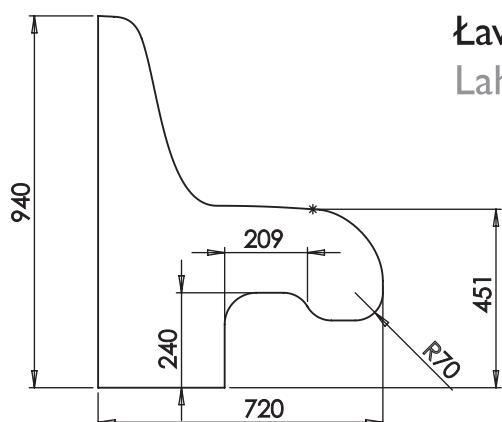

The system of Lahma Futura benches with the slope to the front is dedicated for wet rooms such as steam baths, mud baths, etc. The shape of the bench is ideal for placing lighting under the seat, which will give any room a unique character.

## System ław Lahma Double

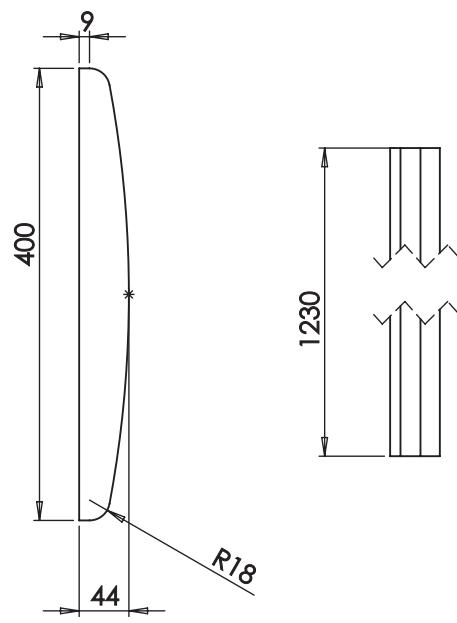

### Lahma Double bench system

System ław Lahma Double składający się z dwóch części: siedziska oraz osobnego oparcia montowanego na ścianie, stanowi ciekawą i nowoczesną odmianę dla zazwyczaj stosowanych kształtów ław. Wykorzystanie osobnego oparcia było celowym zamysłem, aby poprzez zastosowanie na nim innego rodzaju płytka, stanowiło element dekoracyjny całego pomieszczenia i nadawało mu indywidualnego charakteru.

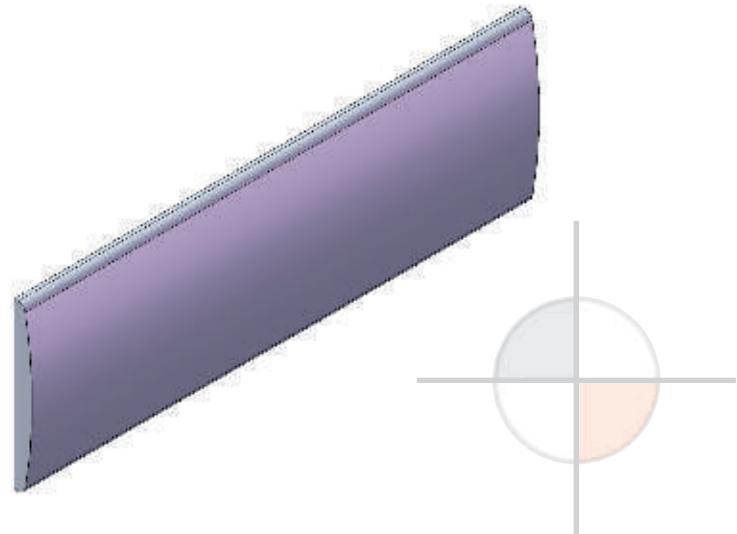

The system of Lahma Double benches, consisting of two parts: the seating and separate backrest mounted on the wall, is an interesting and modern variety that is slightly different from the bench shapes commonly used. The application of a separate backrest was a deliberate intention so that – if other type of tiles is used – it becomes a decorative element for the whole room and gives it a distinctive look.
